

Notice to Baseball Teams:

The student enrollment figures provided in this document were obtained from MISchoolData.org. Please note that this source does not include every school in the state. In particular, private school enrollment data which has not been publicly available through the Michigan Department of Education for several years.

If you have a player who attends a private school or another school not listed in this document, I ask that you contact the school directly to request the enrollment numbers for 10th, 11th, and 12th grades.

As an additional resource, the following directory has been helpful in locating enrollment information for schools not included in MISchoolData: <https://high-schools.com/directory/mi/>

To use this site, select the city in which the school is located, then click on the school's name. The page will display student enrollment by grade level.

I encourage teams to utilize these resources and contact schools directly whenever possible before reaching out for assistance. This will help ensure timely and efficient processing for everyone involved.

Thank you for your cooperation.

Ashley Zimmer

Department Programs Coordinator
American Legion Dept. of Michigan

Feb. 2026 Student Count- Sorted by County then School Name
